

ATTACHMENT #3

35mm PROJECTION IN VIEWFINDER

TASKS:

1. Determine if present optics can accept a 35mm projection onto the cockpit viewfinder. ACTION: Baird.
2. Determine if suitable space/environment exists if the present OXCART configuration is to accept 1. above. ACTION: Lockheed.
3. Develop a destruct capability. ACTION: Development Division/TSD.
4. Accept 1. and 2. above and establish a Development contract proposal to effect the installation. ACTION: Development Division.
5. Determine the camera, processing, and projection requirements to complement the aircraft modification. ACTION: Development Division/Baird.
6. Procure and furnish the necessary "field package" ACTION: Materiel.

NOTE: Hopefully will be the simple answer to 4. and 5. above.
